To whom it may concern,

I am writing to recommend the services of Randy and Connor Clough and their X-treme Sports Gear.

In 2016, our field lacrosse team was in its second season ever and we were looking to upgrade our jerseys and shorts. It was just about 4 weeks away from the first game of the season when we were recommended to check out X-treme threads. Their motto is "Customize your team with X-treme" and that's exactly what they allowed us to do.

A lot of other companies we reached out to prior, had very limited colour options and couldn't quite get the design we hoped for. We told Connor what we were looking for and he and his team went above and beyond our expectations. The jerseys arrived on time and well before our first game and the quality was amazing.

We are constantly complimented on our jerseys and I am very happy with the products they provide and their prices are very reasonable for the quality of work. Their level of customer service can't be matched and we will be returning customers of X-treme Threads and will gladly recommend them for any team gear or apparel.

If you have any further questions, please feel free to contact me.

Regards,
